Roll Count to date: 317

Newsletter number: 009/2024

Do you have the HERO app? From Term 4 we are going digital!

We have heard your feedback regarding the number of notifications you currently receive and will be making some changes to the information coming home so as to not bombard you with daily updates. We will shift to one weekly update either sent by the school (as in this newsletter you are reading now), or on the opposite week from your child's teacher.

New Curriculum

You would be aware that our new government is introducing a new Maths and English curriculum in 2025. The government's priorities are:

Clearer curriculum

Establishing a knowledge-rich curriculum grounded in the science of learning.

Better approach to literacy and numeracy

Implementing evidence-based instruction in early literacy and mathematics.

Smarter assessment and reporting

Implementing consistent modes of monitoring student progress and achievement.

Improved teacher education

Developing the workforce of the future, including leadership development pathways.

Stronger learning support

Targeting effective learning support interventions for students with additional needs.

Greater use of data

Using data and evidence to drive consistent improvement in achievement.

The government's priorities are also our priorities. We welcome the fact that these priorities have been established.

There will be a difference in the current level of content delivery to what is now expected at each age/stage. That might mean we will see some students' data flat line or possible regress. This is an early indication to you to expect that, as nationally we have raised the bar on certain levels and content. We will explain this further once the draft curriculums have been finalised.

Draft Maths Curriculum Information

The New Zealand Ministry of Education is in the process of updating the mathematics curriculum, with a draft version currently under review.

The aim of the new curriculum is to better prepare students for the future by focusing on key concepts and skills in mathematics that are relevant to everyday life and future learning.

Key Changes in the Draft Mathematics Curriculum

Focus on Key Mathematical Concepts

The new curriculum emphasises a deeper understanding of core mathematical ideas rather than covering a wide range of topics superficially. This means students will spend more time on critical concepts like number sense, algebra, geometry, and statistical literacy.

Progressions of Learning

The curriculum outlines clear progressions for learning mathematics just like we have been using with HERO (so nothing new to you). This helps teachers and parents understand what students should know and be able to do at each stage of their schooling. The focus is on building a strong foundation in the early years, with increasingly complex concepts introduced as students progress.

Real-World Application

There is a greater emphasis on applying mathematical knowledge to real-world situations. This approach aims to make maths more relevant and engaging for students, helping them see the practical value of what they are learning.

Problem-Solving and Critical Thinking

The draft curriculum highlights the importance of developing students' problem-solving and critical-thinking skills. Students will be encouraged to think mathematically, explore different strategies, and justify their reasoning.

Cultural Responsiveness

The curriculum aims to be more inclusive and culturally responsive, recognizing the diverse backgrounds of students in New Zealand. It includes perspectives and contexts relevant to Māori and Pasifika students, ensuring that all students see themselves reflected in the curriculum.

Digital Tools and Technology

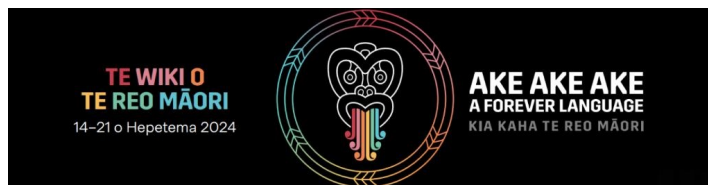

The new curriculum incorporates the use of digital tools and technology in learning mathematics. This reflects the increasing role of technology in education and the importance of preparing students for a digital future.

Transition Period

Since the curriculum is still in draft form, there will be a transition period as schools adapt to the new guidelines. It's important for parents to stay informed and involved during this time to help their children adjust.

Māori Language Week

In 2024 Te Wiki o te Reo Māori will be 14 - 21 September. Māori Language Week has been celebrated each year since 1975. During Te Wiki o Te Reo Māori week our school will organise some fun activities to engage and challenge the school, staff and students to support, encourage and promote Te Reo Māori at Glenfield Primary. Feel free to encourage your child at home in celebrating Te Ao Māori.

kidpower[®]

Our Kidpower strategy focus in this newsletter is
“Listening Power”

Use your listening power to find out and understand what is happening.

SAUSAGE SIZZLE

We will be having a sausage sizzle this **Friday 13th September**
Sausages \$2 Ice blocks \$1

HAPPY BIRTHDAY!

to the following students who have celebrated their birthday since the last newsletter:

James F, Brody C, Samantha J, Louis X, Fidel K, Ken T, Veronica W, Alyza M, Aatir A, Ghilman A, Shaheer M, Via D, Mikhaela P, George L, Fatima H, Eula DG, Noah B, Matea E, Kyle J, Elaina W, Rhoda Z, Kieran C, Glezlie O.

**REMINDER: END OF TERM CLOSURE AT 2PM
 FRIDAY 27th SEPTEMBER**
